For over five decades our customers have continued to use a DASIC application or immersion paint remover product.

They do this because our products are:

▶ **INNOVATIVE**

We constantly improve our product performance and are rigorous in our pursuit of what works for our customers.

▶ **ADVANCED**

We use cutting-edge technologies for our products to enhance our customers' brand and business.

▶ **HEALTH AND SAFETY CONSCIOUS**

DASIC products enable our customers to work safely. Removal of hazardous ingredients without compromising on product performance helps to implement their health and safety policies.

▶ **CENTRED ON BUSINESS BENEFITS**

Saving our customers' operations time and money. This is because the DASIC product range reduces the on-the-job man-hours and 'consumables' usage.

▶ **SUSTAINABLE**

DASIC is committed to meeting our customers' business needs - today and tomorrow.

▶ **HELPING OUR CUSTOMERS TO FULFIL THEIR AGENDA TO PROTECT THE ENVIRONMENT**

DASIC actively encourages environmental stewardship and protection of our world's natural resources.

Application & Immersion Paint Removers

▶ **Aerostrip**

High performance, water based paint remover. Completely free from both phenolic materials and chlorinated hydrocarbons. International Patent held (Boeing D6 -17487)

▶ **D23V**

Industry standard, heavy duty phenolic paint remover for use on polyurethane and epoxy paint schemes. (AMS 1375B, Boeing D6-17487, Lockheed Martin EPS G32.233, MIL-R-81294C)

▶ **D223**

Acid activated, phenolic paint remover for stubborn aircraft paint systems that cannot be satisfactorily removed with conventional alkaline epoxy strippers. (MIL-R-81903 (AS) Type II, Gulfstream)

▶ **D53**

Heavy duty, ambient temperature immersion paint and carbon remover. Use as part of the DASIC Paintblast System for maximum effectiveness. (MIL-C-19853A, DEF STAN 80-20, Rolls Royce UK232 SECT.178G)

▶ **D103**

Specially processed and naturally occurring ligno-cellulose material designed for use with the DASIC Paintblast System.

▶ **The DASIC Paintblast System**

The DASIC Paintblast System provides the complete package for the removal of chemically resistant coatings from complex aircraft components with maximum ease and without causing substrate damage. (British Aerospace, British Airways, Augusta Westland).
